

REMARKS

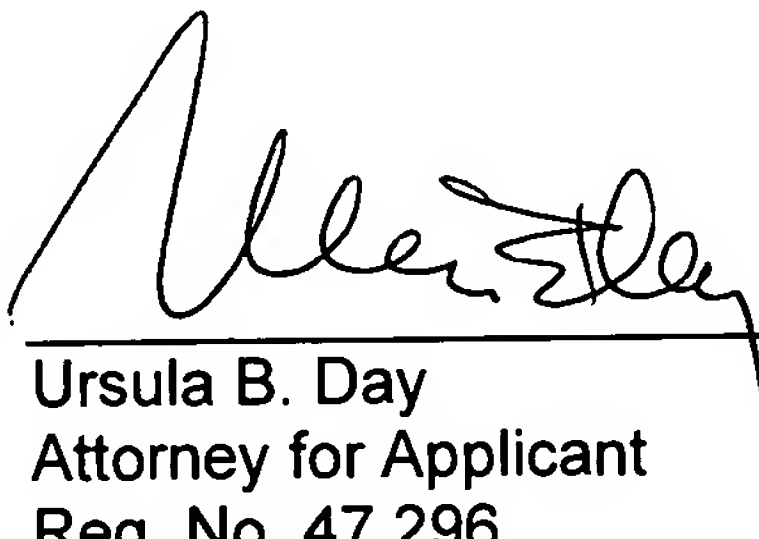

This Amendment is submitted preliminary to the issuance of an Office Action in the present application.

Applicant has cancelled claims 1-14 and presented new claims 15-27 to present the claims in proper form and language and to better encompass the full scope and breadth of the invention, notwithstanding applicant's belief that the claims would have been allowable as originally filed.

The specification has been amended by inserting the relevant headings. The specification was also amended to make it consistent with the applicable Patent Rules, namely reference to a FIG. 1 was eliminated and reference was made to the accompanying photograph. Also, a better copy of the same photograph is submitted as a Replacement Sheet. In addition, reference to patent claims in the description has been replaced by the respective subject matter of the claim.

When the Examiner takes this application up for action, s/he is requested to take the foregoing into account.

Respectfully submitted,

By:
